Destinations

The Sumatran island chain — including Mentawai, Telos, Nias, and beyond, offers some of the most consistent waves on the planet. King Millenium offers three different destinations along the Sumatran island chain. Depending on the season, we move between them to find the best waves and conditions, avoiding crowds and making the most of each swell direction.

“Score your dream waves at the most consistent, uncrowded spots in the world”.

The Trip

“Our recommendations to help you enjoy the best possible experience”.

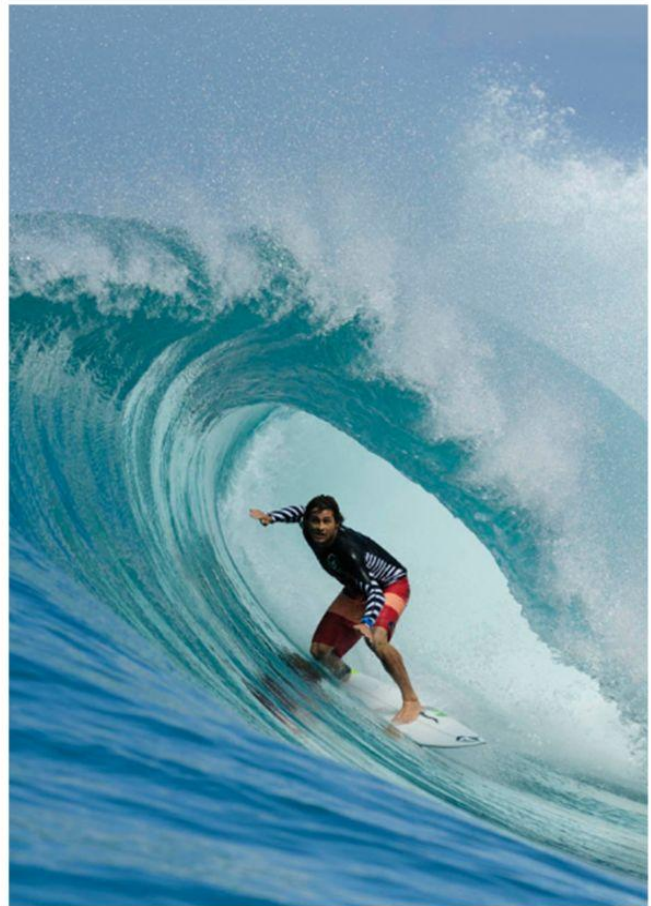

Our standard trips last 11 days and 12 nights. King Millenium’s base is located in Padang, the capital of West Sumatra, close to Minangkabau International Airport.

Our staff will meet you upon arrival at the airport and transfer you to the hotel (about a one-hour drive). There, we’ll gather with all guests to relax before departure.

The boat usually leaves Padang around 8 PM — we recommend arriving before 4 PM to allow time for a smooth check-in.

From Padang to the Mentawai Islands is approximately 100 nautical miles, a comfortable 10–12 hour overnight crossing through the Mentawai Strait. You’ll wake up at first light, ready to surf your first waves of the trip.

Our captain and surf guides have over 30 years of experience navigating the Sumatran waters. They know every corner of the region and are fully dedicated to finding the best waves for our guests. Beyond surfing, you can also enjoy fishing, relaxing, eating, and living simply — a true escape from daily life, surrounded by pristine nature and good vibes.
